

Human Gross-Out Night

Host a Family Science Night at your school & experience the disgusting side of science!

Family Night Programs:

- Encourage cooperative learning among students, parents, and teachers
- All activities are aligned with Florida Sunshine State Standards set in each subject
- Introduce scientific processes, concepts, and themes with fun, hands-on approach
- Develop communication and problem-solving skills
- Present experiments and demonstrations that supplement formal school science curriculum
- Provide activity ideas that can be repeated at home for further discovery
- Reinforce the idea that everyone can be a scientist

Family Science Night includes:

- 15 hands-on stations complete with instruction cards
- A variety of gruesome science topics, including: scabs, boogers, bodily functions, and
- Supplies for up to 300+ participants (amounts based on suggested usage)
- One Orlando Science Center staff member to oversee your event and provide training for your site's 15 volunteers
- Set-up and tear-down assistance in your cafeteria, auditorium, or other large room
- Passport worksheets to encourage student participation
- A raffle prize of 4 Orlando Science Center Ultimate Adventure Tickets (passports used as drawing entries) to one lucky participant

Interactive station titles may include:

- Ear Wax
- Farts • Urine
